

## THE GAZETTE.

MONDAY EVENING, MAY 20

**OLD NEWSPAPERS.**—Many people take newspapers, but few preserve them; the most interesting reading imaginable is a file of old newspapers. It brings up the very age with all its genius and its spirit, more than the most laborious description of the historian. We can take a paper dated half a century ago, without the thought that almost every name ever printed is now cut upon a tombstone at the head of an epitaph? The doctor (quack or regular) that advertised his medicines and their cures, has followed the same train of his patients—the merchant his ships—and the actor, who could make others laugh or weep, can now furnish a skull for his successors in Hamlet. It is easy to preserve newspapers, and they will repay the trouble, for, like wine, their value increases with age.

**OUTRAGEOUS PROCEEDING.**—Yesterday morning about 9 o'clock, as Mr. Wm. H. Paul, one of the judges of election at the third precinct in Jefferson Ward accompanied by three policemen, was conveying the ballot-box of his precinct to the clerk's office of the Hustings court, they were confronted by a party of unknown men at the corner of Seventeenth and Broad streets, who, with drawn pistols, drove off the officers and took forcible possession of the box, broke it open and scattered the contents in every direction. Mr. Paul, however, retained possession of the poll-books and turned them over to the proper authorities.—*Rich. Whig.*

**WALTHAM WATCHES.**  
The extensive use of these watches for the last fifteen years by Railway Conductors, Engineers, and Expressmen, the most exacting of watch-wearers, has thoroughly demonstrated the strength, steadiness, durability and accuracy of the Waltham Watch. To satisfy that class in all these respects, is to decide the question as to the real value of these time-keepers.  
More than 450,000 of these watches are now speaking for themselves in the pockets of the people—a proof and a guarantee of their superiority over all others.  
The superior organization and great extent of the Company's Works at Waltham, enable them to produce watches at a price which renders competition futile, and those who buy any other watch, merely pay from 25 to 50 per cent more for their watches than is necessary.  
We are now selling Waltham Watches at less prices in greenbacks than the gold prices before the war. There is no other manufacture of any kind in the United States of which this can be said.  
These time-pieces combine every improvement that a long experience has proved of real practical use. Having had the refusal of nearly every invention in watchmaking originating in this country or in Europe, only those were finally adopted which severe testing by the most skillful artisans in our works, and long use on the part of the public, demonstrated to be essential to correct and enduring time-keeping.  
Among the many improvements we would particularize:  
The invention and use of a centre-pinion of peculiar construction, to prevent damage to the train by the breakage of main springs, is original with the American Watch Company, who, having had the refusal of all other contrivances, adopted Fogg's Patent pinion as being the best and faultless.  
Hardened and tempered hair springs, now universally admitted by watchmakers to be the best, are used in all grades of Waltham Watches.  
All Waltham Watches have dust-proof cases, protecting the movement from dust and lessening the necessity of the frequent cleaning, necessary in other watches.  
Our new patent stem-winder, or keyless watch, is already a decided success and a great improvement on any stem-winding watch in the American market, and by far the cheapest watch of its quality now offered to the public. To those living in all portions of the U.S. where watchmakers do not abound, watches with the above-mentioned improvements which tend to insure accuracy, cleanliness, durability and convenience, must prove invaluable.  
Every watch guaranteed by the Company.  
To prevent imposition, buyers should see that every watch should bear either of the following trade marks:  
American Watch Co., Waltham, Mass.  
Amn. Watch Co., Waltham, Mass.  
Appleton, Tracy & Co., Waltham, Mass.  
Waltham Watch Co., Waltham, Mass.  
P. S. Bartlett, Waltham, Mass.  
Wm. Ellery, Waltham, Mass.  
Home Watch Co., Boston, Mass.  
For sale at retail by all respectable dealers.  
A descriptive circular, giving much useful information, sent to any address on application.  
No watches retailed by the Company. Address,  
ROBBINS & APPLETON,  
Gen. Agts., 182 Broadway,
